

## IRS CONTACT INFORMATION:

The initial contact point is always the IRS Centralized Insolvency Office (CIO); the IRS is supposed to refer anyone who isn't already working with one of the IRS employees to call them first. If one of the IRS employees is working the case locally, the CIO will give the name and phone number of the local person.

The CIO's phone is 800-973-0424; their fax is 855-235-6787.

If the local office files a proof of claim in your bankruptcy case, the local employee's name and phone number is printed at the bottom of the first page of the claim. That gives the attorney the ability to contact a specific local employee.
